

AMENDMENTS TO THE CLAIMS

Claims 1-22 (Cancelled)

23. (Currently Amended) ~~[[The]]~~ A method ~~of claim 10~~ for encouraging users of
computer readable content to register, the method comprising:
executing instruction codes embedded in said computer readable content, when said
content is in use by a processor circuit, to automatically establish a connection to a server to
transmit registration information to said server and to control subsequent use of said content by
said processor circuit in response to a key received from said server, wherein
the instructions codes include self-executing application code,
said content is non-functional descriptive content, and
controlling subsequent use of said content comprises maintaining a count of the number
of times a warning about deleting files is presented to a user of the processor circuit.

24. (Original) The method of claim 23 wherein controlling comprises deleting files
produced by functional descriptive content in said computer readable content when said count
exceeds a threshold value.
